Should it be necessary, as it doubtless will be to communicate with Lieut-Commander De Long, after his arrival at Yakoutsk, a dispatch can be tent to him by telegraph as far as Irkoutsk, and by courier from there, and will reach him in about twenty days. Until the shipwrecked party arrive at Yakoutsk there will be some ground for anxiety with regard to them on account of the physical condition to which they have doubtless been reduced by the terrible hardships they have undergone. At Yokoutsk, however, they will find everything which they need to restore them to health and strength, and the journey homeward from there will be one of perfect safety and comparative ease and comfort.

the Pullman Palace Car Co., says: "I have received no advices from our Montreal representatives, nor from the Grand Trunk people. I have telegraphed to Montreal and think it strange, if the information be correct, that we were not immediately notified. The story bears evidence of falsity, Had the seizure been attempted the Grand Trunk road would have given bond at once, until the matter could have been fraquired into, and our company would also have given bonds. I cannot understand the grounds of the seizure as the company has not knowingly violated the custom laws of the Dominion or of the United States, but on the contrary has been very scrupulous in this regard. All cars built in Canada are assigned to and operated by the Grand day, and the President protein of the Senate, made a formal announcement that Harriare assigned to and operated by the Grand Trunk railway, and repaired at their Can-ada shops. Besides being built by that road the Pullman Company only furnish carpets, upholstery and bedding, and all these materials are furnished in Montreal.

The bridge was badly wrecked. J. M. Leavitt, the fireman on the engine, jumped and swam out. The engineer, W. B. Wilcox, was pulled out with his left leg cut off below the knee. The conductor was crushed to death between the engine and tender and is still under water.
